

Usman Iqbal

Senior Full-Stack Engineer | Technical Lead

Lahore, Pakistan | ranausmannoman@gmail.com | +92 333 3799535
ranausman.dev | linkedin.com/in/ranausman008

Senior full-stack engineer and technical lead with 6+ years delivering .NET, PHP and React applications across web, mobile and cloud. Combines direct development with AI-assisted engineering, client-facing delivery and platform modernization. Owns technical decisions, implementation review and release coordination. Open to international remote roles.

TECHNICAL SKILLS

Backend C#, ASP.NET Core / MVC, REST APIs, EF Core, PHP, Laravel, CodeIgniter

Web and Mobile React, Next.js, Vue, TypeScript, JavaScript, .NET MAUI, WinUI 3

Data SQL Server, PostgreSQL, MySQL, MariaDB

Cloud AWS ECS Fargate, EC2, S3; Azure App Service, Blob Storage

Delivery GitHub Actions, Azure DevOps, Laravel Forge, Docker, CI/CD, automated testing, UAT

PROFESSIONAL EXPERIENCE

PureLogics

Mar 2023 - Present

Senior Software Engineer | Technical Lead | Lahore, Pakistan

- Led CI/CD delivery for a .NET healthcare kiosk API to AWS ECS Fargate, incorporating automated tests and deployment checks across development and UAT.
- Led release engineering for WinUI 3 kiosk applications sharing one codebase, delivering four development/UAT self-update channels and coordinating client device onboarding.
- Delivered SnapChef onboarding spanning ADP, I-9/W-4 forms, direct deposit and skills, with document handling through Azure Blob Storage.
- Implemented orientation assessments and employee/customer messaging with Quartz and SendGrid; replaced third-party recruiting workflows and supported .NET MAUI App Store releases.

CONTRACT EXPERIENCE

Webaryco

Mar 2026 - Present

Technical Lead | Concurrent Contract | Guestay platform

- Directed the ongoing modernization of Guestay's CodeIgniter admin into a Next.js/React platform, connecting live backend workflows while keeping the existing admin operational.
- Directed booking, payment and guest-messaging enhancements, including shared inboxes and automated messaging, with phased releases across a shared multi-brand backend.
- Reviewed and edited AI-generated code; owned scope decisions, client coordination, beta validation and live-release approval across backend, public-site and admin applications.

CONTRACT EXPERIENCE CONTINUED

Embark

Sep 2024 - Present

Senior Full-Stack Engineer | Concurrent Contract | Maker's Row and RoundHere

- Led Maker's Row's blue/green production cutover to updated AWS infrastructure, directing rehearsals, data validation and rollback checks while preserving existing application workflows.
- Coordinated staging-to-production releases with a peer developer, translating rollout requirements into validated deployment plans and explicit release approvals.
- Built RoundHere live-event capabilities with Laravel, Inertia and Vue, including WebSocket real-time features, a Vonage live studio and queued recording workflows.
- Developed Maker's Row factory-monetization features with Laravel, Vue and Stripe, including a webhook audit trail used by billing workflows.

EARLIER EXPERIENCE

NETSOL Technologies

Feb 2020 - Mar 2023

Full Stack Software Engineer | Lahore, Pakistan

- Developed C#/.NET modules for NETSOL Financial Suite, covering leasing calculations, asset-finance workflows and contract lifecycle management.
- Supported deployments in Indonesia and Australia, including six months onsite in Jakarta coordinating UAT, releases and production troubleshooting.

AI ASSISTED ENGINEERING

- Direct Claude Code and OpenAI Codex with scoped briefs, branch-aware implementation plans and independent verification; review and edit generated code before release approval.
- Use targeted builds, regression checks and browser validation to assess implementation against requirements and keep release decisions evidence-based.
- Use connected Trello workflows and Fireflies meeting transcripts to turn decisions into engineering tasks, project reports and delivery follow-through.

EDUCATION

M.Sc. Business Information System Management

2020

Middlesex University, Mauritius

B.Sc. Information Technology

2018

PUCIT / University of the Punjab, Pakistan
